We Are the L.C. Tigers...
We Roam the Concrete Jungle

Lewis & Clark High School
521 W. 4th Ave.
Spokane, WA 99204
Volume 92
Graffiti has got to be one of the most chastised art forms in modern day history. Not only will it honor a student with an automatic three day suspension if they're caught, but if one is spotted written in public, they are looking at a period of jail time. Graffiti is thought to be purely gang related. People don't realize that graffiti only became popular during the transition period between the 60's and 70's. Young people wrote, or "tagged," their name to the surface of many different things in the places they visited. It wasn't until later that graffiti was adapted for the world of gangsta. Just as the word, "Santa" can be flipped into the name, "Satan," the amazing and intricate art form of graffiti can be changed from something that was more or less innocent and adventurous to something dark and dangerous.

However, graffiti is not purely gang related. As a matter of fact, only one in twenty cases of graffiti can even be considered partially gang related. There are different groups and clubs all over Europe, Australia and the U.S. whose main purpose is to express their ideas through graffiti. Spokane alone has four major graffiti groups, some of which have members attending Lewis and Clark High School at this moment in time. These groups are absolutely, one hundred percent harmless and create works that are absolutely amazing. Spokane is one of the biggest sources of graffiti in Washington State, which is something that isn't widely known. Evidence of this can be seen at the local skate park, not far from the L.C. campus. When anyone walks down in that direction, they are immediately overtaken by the many different colors and funky designs decorating the place. If one looks closely at these designs, new symbols and patterns can be seen. Graffiti can be an extremely fun form of art that anyone can enjoy once they get past the taboos our society has created.

OB: it wouldn’t have been the same w/o you! Meet me at Driskill! Pink Ponchos: boy these were some good times. I love you girls.

The world is a tragedy to those who think and a comedy to those who feel.

Today is the first day of the rest of my life.
-(MAX)
### Attendance Excuses

1. My son was absent yesterday because he had a stomach ache.
2. My daughter won't be in school on Monday due to a doctor's appointment.
3. My son is in bed with the flu.
4. Please excuse my son for being absent on Friday, 30, 31, and 32.
5. Please excuse my daughter for missing school yesterday because she was feeling sick.
6. My daughter won't be in school on Monday due to a doctor's appointment.

#### Other Excuses

- Student injured
- Family emergency
- Parental leave
- Doctor's appointment
- Family vacation
- School event

---

### Examples of Excuses

- "I need to take my child to the doctor for a routine check-up.
- "My child is feeling under the weather and needs to stay home.
- "A family member is in the hospital and needs my attention.
- "There is a school event happening that conflicts with our schedule.

---

#### Instructions for Excuse Notes

- Please provide written documentation of the reason for the absence.
- Keep a record of all excused absences for the school records.
- Notify the teacher or school office when your child returns to school.

Ryan Cornell

Ariana Kirkpatrick

Matthew Covert
The sun is in the middle, the wind is in nature. The rain, a drumming on the roof and the storm raging in the sky are music. Music is the oldest entity.

Joshua Covington

Life... live it how you want you with the chance. So live it up.
Kristin Cowan: There are treasures in one's life that cannot be won, touched, or measured.

Ashley Cozza: Thank you for all your support.

Vicki Culberson: Things go by so fast, people you're in and out of your life. You must never miss the opportunity to tell these people how much they mean to you.

Jessica Cummings: “Thanks!” This says it all guys! Good luck Ben and Erika. Available on your side of the road.

Chancey Cunningham: Sunlight shining through the trees.

Jason Cunningham: When I was a kid, my favorite relative was Uncledm. After school we'd all go play in his car, and every once in a while he would sit one of us in the back seat. It wasn't until later that I found out that Uncledm was a bear.

Brendan Cuyler: "I took the road less traveled by, and that has made all the difference." - Robert Frost

Molly D'ariano: "Success is most a function of consistent common sense rather than of genius."

Nicole Deharrera: Sometimes our only way is jumping. I hope you're not afraid of heights. Thanks for all the fun - D&B, MCO, and KR. I love you all. P.S.: I'll always be here for you.

Christopher Deitz: "What do you think I blew up your car?"

Tyler Draper: GarySinace is life these 4 years. Hi Mom.

Danielle Depew: Sometimes our only way is jumping. I hope you're not afraid of heights. Thanks for all the fun - D&B, MCO, and KR. I love you all. P.S.: I'll always be here for you.

Erin Devine: Sometimes our only way is jumping. I hope you're not afraid of heights. Thanks for all the fun - D&B, MCO, and KR. I love you all. P.S.: I'll always be here for you.

Homelessness

At lunch or after school is when they come out of the bushes and dark corners under the freeway. We see them almost every day. Some of us have made friends with these people we know as the homeless of downtown Spokane.

Some like to watch students at the skate park and cheer them on when they wipe out, such as one homeless person known as "Woo-Woo." When walking home from school, a student could see a person holding a sign, saying he is a Vietnam Veteran in need of help (a missing leg being evidence of truth).

Every homeless person has a story to tell, an adventure that could take one to a further understanding of the world we know very little of. 47-year-old Jim is no exception. He has lived with no home since he left the army at the age of 22.

"I wanted to do things my own way," said Jim. "I never trusted the system, so the system took everything I had away from me."

Jim said he has traveled across the country by train, from Florida, to New York, to California, to his favorite part of the country, the Pacific Northwest, "except I don't like sleeping in the snow."

"My homies and I travel the same way birds do. We go south in the winter, and we go north in the summer."
The rest of Jim’s life was kept personal, showing some of these people still have their dignity. With that, he had nothing else to say.

Ron has a criminal record deep enough to where he has decided to flee from his life. An alleged prison escapee, he wishes he could turn his life around and be the simple family man he dreamed of being.

“I want a house and three cars and a bunch of kids, but hey, don’t we all?” said Ron. “God has put me here for a reason: to teach the word of God to my buddies and make sure they all go to Heaven.” Ron believes that if he holds on to his faith, he will one day become clean on his criminal record and live the life he always dreamed of.

Some of us may never truly understand the lives of the people we see picking through the garbage while we wait for the bus, whether or not we lend a couple dollars, whether they use it to buy alcohol or food. Let’s remember one thing, above it all: Each person in the homeless community has a story to tell.

Many homeless people stay together to help each other out.

The infamous “Woo Woo,” The Cheerleader of the skatepark.

Remnants of a homeless night.

Many transients are only passing through Spokane.

Ray Laemmle
Who likes it

“Anime is Japanese cartoons that are extremely enjoyable to watch they’re better than American cartoons and reach out to all ages.” Stephanie Moore

“Anime is feelings put through by works of art and thoughts.” Cyler Conrad

Who doesn’t

“Anime is bad because it puts our proud American cartoonists out of business.” Connor Potucek
Anime is probably one of the worst forms of cartoon creations because it’s all the same: the characters don’t even look human; they have the big eyes with the little slants on them and everything. I don’t like it at all.’ Mrs. Petek

Who cares about anime? The truth is, only a small population of L.C. really gets into it, or really cares to voice how much they like it. Maybe you have one of them in your class, you know the ones, who sit and obsessively draw all over their papers and tests. You can see them doodling hands and bodies, they carry around their sketchbooks and fill them with pictures of their favourite characters, both their original and anime characters. They are the people who talk about their tablets; draw on the oekaki boards, who religiously watch Full Metal Alchemist and Hellsing. The girls who drool over slash fanfics and even write their own. But these people look just like you and me, normal, well-adjusted people. The only way you can tell them apart from us is when they open their mouths; when the topic of anime comes up, they light up, they scream and giggle and get excited and joyous. At lunch, the hallway explodes with laughter and the glee of fan girls.

There are many choices for you in the world of anime, ranging from Neon Genesis Evangelion, an incredibly strange and messed up anime about the battles between humans and angels, to Panda Z, an anime that teaches you important lessons like ‘Don’t eat batteries,’ and that rain rusts metal. The variety is immense; there is an anime for practically every taste, from the people who love fighting to the people who love love-triangles. It’s the same case with the styles of drawings. There are the old-school styles like Robotech and then there are the newer styles like Pita Ten and Melody of Oblivion.

But every style is different. There are similarities, though, but the artist’s art work is completely their own. You can easily see the difference between DragonBall Z and Full Metal Alchemist, but how well can they see the difference between Queen Emeraldas and Daft Punk’s Interstella 5555? To the people who hate anime, they all look the same, big eyes with little slanting things, huge boobs and tiny waists, but any educated person knows that they don’t all look like that. There is a menagerie of styles, one for every taste, that is, if you like this kind of thing, or you can approach it with ‘eyes unclouded by hate,’ but that task is a little too hard for some people.

‘So, do people really care about anime? Should they even care? Some people say no, some yes. You can answer it for yourself, unless you already decided what you thought before you’ve tried it.

“Anime is a way of extracting square roots.”
Mr. Brown

SUPERS

Biggest Procrastinators

Andrea Morrison

Robby Douthitt
Every year our infamous Lewis and Clark Tiger Drill Team "wows" us in every way imaginable, and this year was no exception. With an entirely new coach this year, they still managed to maintain their magnificence and received third in state. Although the girls have gotten used to being the overall champs, this year wasn't at all a loss considering they scored better than they did last year when they did come home with the gold. In an interview with the lovely Miss Katie Bresnahan, she talked about the difference between the two teams that one and our Drill Team. "We really are more of a precision dance team. Other drill teams are much more of a "drill" team, with
whistles and everything,” and the two teams that prevailed over Lewis and Clark were just that.

Drill team has always been an important part of this school and you’d think that switching the coach over the summer would cause some tension, but the girls did just fine to this adjustment.

Jen Springsteen is this year’s new Tiger Drill team coach and although I’m sure that the girls from years past weren’t exactly stoked over the loss of Ms. Stuckel, they all seem to get along fine, and really pull together when time for a performance.
SLOW-PITCH SOFTBALL

Full of Energy

Slow-pitch Softball, it is the baby of the sports in the USA. Having been added as a league sport only three years ago, it has gained popularity among the girls at LC. Even though there are no great "back-in-the-day" stories about this sport, the slow-pitch girls are making their own stories. They haven't become bona fide champs yet, but if the effort.
prove-ment from 42% success to 75% success! Most of the ladies on the team are upper class- men which made the team strong together. Their inherent skill added to their familiarity with each other was what made them solid, but even the new additions of the year fit like a glove on this team. This group of energetic girls is sure to amaze in the upcoming years, and they have polished the Pride of the Tigers with this amazing year already.
A TEAM THAT HAS TOO MUCH FUN

"Even if there weren't spectators in the stands, we'd still be cheering!" Senior Jen Lamb is proud of the excessive spirit this year's squad has. Whether they were cheering at a freezing cold football game or making the awesome posters that line our walls, they were always laughing, goofing off, and having a great time.

When asked what the most memorable experience the squad has had together, all of the girls agreed it was the summer camp. Dorm assignments were said to be the best. None of the girls got to pick where they would sleep. Instead, their names were drawn to see who their bunk buddies were. This gave them all a chance to get to know everyone a little bit better and strengthen new friendships. "I had the most fun at camp with all the girls," says senior Anna Yoshida, "It was the best time to get closer to everyone from last year, and to mold the new girls into the squad." The team's coach, Mrs. McNutt, was incredibly proud of her squad this year. "The girls are just always laughing, always hanging around together, and are just always having fun doing whatever. It's nice to see how well they work and play together."

When not practicing routines and cheering, the girls usually make snacks for last year's athletes or announcements of upcoming meets. While they create the awesome wall furnishings, they munch on candy or..."
Cheerleading

even have cake at times! Senior Esther Schura commented on how lucky the girls are to have such a fun coach. "Mrs. McNutt is always giving us candy and stuff. She's really cool and we have so much fun with her." In response to their little candy habit, Lamb was quick to reply, "Oh, you think that cheerleading is the super skimpy ahem sexy group? HA! We eat like every time we're together. We're in shape, but we definitely don't starve ourselves, that's a huge misconception."

The group of crazy and laughter filled girls is one of the most energetic we've had here at LC. The 04-05 squad is sure to be remembered as a team that was always having a good time. "It's crazy!" Schura exclaims, "We have way too much fun together."
Imagine being silent for a day; not being able to communicate with your friends and family. You become all but invisible to the world. You long to shout so people will notice you. Now imagine that silence as your entire life. That is how it is for thousands of gay, lesbian, bisexual, transgender, and questioning (GLBTQ) human beings around the world.

Every April for the past few years, students at Lewis and Clark have chosen to take a vow of silence to protest the harassment of the GLBTQ, and to help stop the continued silencing of the gay community, regarding their sexual preference. The Day of Silence is run by Spectrum, the gay/straight alliance at LC. Spectrum is a five year old organization that deals with the tolerance and acceptance of the GLBTQ community.

Most of the members are straight, but they feel the need to show people that gays are a part of our world, and need to be treated as human beings. The Day of Silence is a reminder to the world of how GLBTQs are treated. This tradition started three years ago. There are other activities throughout the year, which promote the acceptance of gays. One of the most well known is the Hate Vigil, which takes place every fall. It is used to be the Matthew Shepard Vigil, named after the homosexual in Laramie, Wyoming, who was beaten to death because of his sexual orientation. It has become a vigil to deal with all aspects of hate in the world, and all different minorities. Another activity is National AIDS Day, in December, which educates the Lewis and Clark community of the existence of AIDS around the world.

Spectrum has slowly been growing over the past five years. Claire Breshe, President of Spectrum spoke about what bothers her most about the discrimination of the GLBTQs. “It’s silly to live in a shadow and expect everyone to be perfect, because no one is anyway,” she said. “Homophobia is a major issue that must be dealt with and cannot be ignored!” Thanks to Spectrum, the issue of homophobia is being dealt with in a peaceful and responsible manner. The Day of Silence is a good move in the right direction, and hopefully as the years go on, more people will join in the fight for equality.
GYMASTICS

FLIP, RATTLE, AND ROLL!

Lewis and Clark is positively blessed to have such an outrageous gymnastics team. These flipping, flying, tumbling, back-hand springing young ladies, led by Jackie Fulton, Angela Deatherage, and Tanya Wunsch, are living proof that it takes a little more to be a tiger. The amount of both physical and mental endurance these extraordinary girls possess is almost unfathomable. Picture this: Every single night while most of us are either chillin' at home, relaxing after an exhausting day in school, hanging out with friends (putting off homework for as long as humanly possible), our L.C. Tiger gymnasts are in the gym, putting their bodies through exhausting physical and mental training, preparing to kick some serious booty at their next competition. Sarah Lehman, a junior, and Andrea Morrison (captain), two outstanding Tiger gymnasts, had a lot to say about the difficulties of being in gymnastics.

“There is a lot of pressure,” says Andrea. “We’re out there half naked trying to perfect these moves, and all eyes are on us. You feel really self-conscious at times,” adds Sara. Andrea and Sara also conclude that it is extremely disheartening to look up into the stands and realize that fellow students don’t really support gymnastics meets. “It feels like nobody really respects us for what we do. L.C. hasn’t been known for an outstanding gymnastics team, but people don’t realize the time and effort that goes into what we do. There was this one time where we had a dual match with Ferris, and there were way more Ferris supporters than there were L.C. supporters, and we were at our school. It was devastating.”
After speaking to several of the gymnasts at L.C., I came as a bit of a surprise how down-played the sport really is. These girls put their heart and soul into their work, and they have the battle scars to prove it. When participating in gymnastics, there are constantly new breeds of injuries.

Some of the girls who have been in gymnastics for a few years have worn away the cartilage in their joints, causing them to need reconstructive surgery by the time they are eighteen years old. There are innumerable wrist, ankle, and back injuries on the teams. Many of the girls end up in bi-weekly sessions of physical therapy. The truly amazing thing about all this is, the girls still compete and practice every single day, no matter how much pain they are in. Tiger gymnasts get the occasional injury which completely prevents them from competing for an extended period of time. But for the most part, they build a tolerance to the physical stress. "The girl who is out there smiling the biggest is probably the girl in the most pain," remarks Andrea.

In spite of the pain, the injuries, the time consumption, and emotional strain of being in gymnastics, the girls maintain an optimistic attitude towards the sport. The team has truly flourished this year. Melissa Main, a promising freshman, made it to regionals. Phillena Henning, a sophomore this year, also show potential to become an even more outstanding athlete. The team also holds great pride towards Kassy Sainstbury, who made it to state this year. The girls' team is extremely close, more so than previous years. "Before, it used to be every girl for herself, but this year, the new members are very serious about what they do, so there is a ton of support coming in from all sides," says Sara. The emotional support is yet another factor which has so much improved the gymnastics team.

If you didn't get a chance to go and watch our Tiger girls compete at gymnastics meets this year, you sorely missed out. I mean you really missed out. It is amazing what these girls are capable of doing with their bodies when they go out on the mat, the balance beam, or the bars. The L.C. gymnastics team deserves the utmost respect and support from our student body, and hopefully in years to come, they will gain that support so that they can go on to become bigger and better than ever before.
Another football season, just like all the others; Great games, disappointing games, it's all the same, right? Not in the least. For a football season to be truly memorable, the fans, the coaches, and the players need to be shocked and surprised. A season is no good if there aren't unexpected twists and turns waiting to make jaws drop, fists clench, and hearts race. The suspense of not knowing what will occur, and then have the most unbelievable thing happen is what makes things like our football season the best, most exciting, and most memorable.

For five games we were undefeated, upholding our reputation of being one of the strongest powers of GSL Football. Throughout this power streak, we left Mount Spokane, West Valley, NC, CV, and Clarkston in our wake. Then came the shocker: in a game matched against Mead (who was at a pathetic 2-4 in their season) the Lewis and Clark Tigers went in confidently, yet came out crushed. The deafening loss was 21 to 14.

Our pride was burned, and when the game against Universitv came up, tensions rose. University was at 4-3 win/loss for the season so far. This game hung in the balance. And the struggle between the Tigers and the Titans was fierce, but in the end our team tasted defeat for the second time in a row.

Though the Tigers were bruised a bit in the ego, they were determined
A SEASON OF SURPRISES

Coach Jeremy pumps up the team before sending them back onto the field. He's a favorite among the players, they really admire him as well as respect him. Brad Pottenger, senior, thinks Bonnett's one of the greatest coaches out there. He's really close to us. He's our friend, but he's serious about getting the job done. He loves the game as much as we do. He cares about the game and about us. He's seriously like a best friend.

I was praying to every god I knew." Senior Chris Edwards is getting ready to crack the ball through the apringles. "It was a game winning kick. It was against C Prep, wish about five seconds left, if I missed we lost. But the kick was good and we ended up winning in overtime," he always bleeds from the forehead," said Brian Porter senior.

Lewis & Clark

win their next game. The only thing though, was that the team they were matched against was the undefeated Gonzaga Bullpups. This time however, our team wasn't intimidated in the least, and they gave a vicious fight for victory, and in overtime, we came out on top 23-17.

Energy was through the roof. All our team had to do was win one more game, the last league game, the game against our rivals the Ferris Saxons. Everyone was pumped for this game, and the day came, and a huge amount of LC students showed up at Central Valley's field to cheer on the football players. The game was intense. The freezing muddy ground was demolished by the numerous take-downs and tackles dealt by both teams. The score was tied up at the half 12-12. Each team had stopped the other's two field goals. Then in the last quarter, Ferris got the winning point and our Tigers couldn't recover.

Our chance for State was gone, and another year we were deprived of the title of GSL champions. Our defeats were unexpected, and some of our victories were even surprises. Our team gave it their all every game, but the unforeseen destiny was already worked out. Next year our Tigers will undoubtedly endure another year of surprises.
As the varsity’s number one runner, Whitney Porter has a lot to live up to. The expectations for these girls are extremely high; simply showing up and running the course isn’t enough—they have to do more than their best. They have to practically kill themselves for the sake of the team.

The Pain of Fun

Your alarm clock goes off and it is way too early to get up. But thoughts of letting your teammates and school down shoot you out of bed and into your running clothes. The air is still cool from the night’s chill. You check your watch and it is 8 a.m. You think to yourself, ‘What am I thinking? It’s summer. I’m supposed to be in bed now.’ You sigh because you know it is time to start your daily romp across the scenic South Hill. A few miles aren’t too bad, and it will make you a better player, but why aren’t those girls here? You know summer running is optional, but why would you give up such a great opportunity to improve yourself and learn how to work with your new team?

This scene may sound placid and serene, but cross country is really a glorified sport. Rarely do you hear about the pain the runners go through during and after the races. Feeling mentally and physically drained, some girls might throw up or even pass out, like Taylor Yost, freshman, did after a hard battle of running. Or you may suffer from an internal problem as a result of having flat feet, like Caitlin Wolfe, sophomore. Her flat feet caused swelling in her legs and the muscles to pull on her tibia resulting in a growth on her bone. But she keeps running, through her love of the sport. ‘Cross country is different. It’s the hardest sport of them all. You put yourself in as much physical and mental pain as you can and you just end drained,’ says Caitlin. But all this pain and hard work really paid off, the girls are going to state to show them what LC is made of.

But cross country isn’t all pain and endurance; they have fun, too. On their annual trip to Missoula all the girls dressed up
to go to the spaghetti feed which was held at a local high school. They were decked out in the 80s style and completely embarrassed the boys. Mr. Morlan denies this; he says that the boys were there 45 minutes before the girls and when they came in the guys had just finished. They looked completely outrageous. ‘They went to dinner really dressed up, they were over dramatic for just a spaghetti feed,’ said Mr. Morlan.

Cross country is an excruciatingly painful sport, but don’t let that dissuade you. If you want you should try to be part of it. The memories you make will be wondrous, and you’ll meet so many new, determined people.

Taylor Yost has a bright future in cross country. She is one of three freshmen on the team and shows promise for the future. Keep your eyes on her.
Tension showed on the faces of the boys basketball team as the buzzer ran down to the last few seconds. Coach Reed was standing with his arms outstretched, and the players flowed in a sort of poetry of motion. This imprinted itself on the minds of the watching spectators. For the team, basketball has been their focus for many years. Skyler Kliwer, sophomore, revealed that he has been playing basketball for a long time, and feels strongly about the commitment it takes in the long run. Rashad Jones, junior, always wanted to play basketball, and now he has the chance, on a team full of his friends and peers. The team is close-knit because of the friendships that have been building since before this team came together. Many of the players hang out together off court, and they help each other focus before a game. Will Erickson, senior, chuckled as he thought about the team the last year.

“Everyone has known everyone for a long time, so we feel comfortable being around each other and playing.” To those of us who pay attention, this bond shows clearly on the floor. Even when a player is on the bench, he still yells encouragement to his teammates, and helps out with suggestions. No one person keeps the ball too long. The ball passes to many different people so everyone gets a chance to shine. Erickson said, “We’re such a young team; there were no seniors on this year’s..."
starting lineup, and there are only three seniors now.”

The youth of the team is a big bonus, because they can learn from each other over the next year, and improve their record.
team. The entire team gathers around for a pregame Horman.

Christ luby, Junior, dives for the ball in the midst of a heated match.

Not Just SHORT SHORTS

Ivy Bush, Junior.

Juniors, Arisane Jackson and Danielle Porter are shown rac- ing for the quickly descending volleyball.

Laurie Yearout, Fresh.

Jenae Forney, Sophomore.

Volleyball.

For about 50% of the population volleyball is about watching girls jump around in extremely short shorts, but for those who are unaware, there is so much more to it than that. This year’s team was awesome, but the season was extraordinary. We had more spectators this year than most years past, and being a girl I know how enjoyable it is to have an audience to cheer for. And these girls definitely had mad skills on display. Erica Enos, sophomore, states that, “The crowd was great! People showed up to both home and away games. It was really nice to see dedicated fans cheering you on.”
Not only were the girls able to show off their hot, athletic bodies, while prancing around in their cute school dix but, for being a spectator myself I am quite aware of how amazing these young athletes really are. They jump higher than wallabies, spike harder than boys, and play better than ever before. Proof of this was their match against Ferris, where Erica informs me that it was a great match that went to five games, but LC pulled through. By far their most memorable part of the season.

Over all the team got along great and if showed in their game. They ended their season with their record being 16-3, an extraordinary season by far. Furthermore, we’ll have as much incoming talent in our 2008 class of freshman, and for all of those who didn’t make an appearance at a game this year, I can assure you it is the ultimate fall hang-out spot... and it’s indoors...
“Turn!” yells Coach Krestian to his soccer players as they run the gauntlet of the soccer field. The lady tigers had a promising season this year with a great record of 16-6. Captains Maggie Yates, junior, Jessica Smith, senior, and Hilary Love, senior, led the tigers to victory.

Many games were “on the edge of your seat” exciting. It was absolutely fascinating to watch the players flow from one part of the field to the other. In one of the exciting games against our rival, Ferris, Katie Dismann, junior, scored an astounding goal to cinch the victory in overtime. The celebration after each win was amazingly good-natured, and it was great to see the girls congratulate each other with encouraging words and wishes.

Coach Krestian expressed his happiness of coaching these wonderful players. “They have really come through this year,” he said proudly. Each game proved to be a learning experience, where they could really practice skills on the field.

Though the cheering section in the stands was not as large as the team wished it would be, the girls made wonderful progress with their skills and communication. The varsity girl’s communication was absolutely wonderful this year. They worked hard to coordinate themselves so they could hear each other and their coach. The girls talk on and off the field, giving helpful hints and instructions. They really respect the opinions and views of the other players, and this makes their team so incredibly strong.
According to Colleen Rupp, senior, eating a banana beforehand is the most important part of a good game for the potassium to prevent muscle cramps.

Maggie Yacono, junior

Hillary Love, senior, is one of the team's captains. She shared her responsibilities by saying, "My job is to keep everyone motivated, get a team atmosphere, make everyone friends, and to have everything run smoothly."

Some of the new freshman really added "fresh" talent and spirit to the sport. With incredibly talented players who really understand the meaning of the game. Next year's season promises to be just as exciting as this one.

At half time, coach Kenny Krestian, communicates with his players. Kenny has a really good grasp of noticing what's wrong and keeping the team motivated.
With the best wrestling team that L.C. has seen in about five years, the 2005 season has been sensational. The success of the team can be traced back to not only the hard work and dedication put in by the boys on the team but also to the exceptional coaching atmosphere being used this year.

"The coaches think much more of us this year because we have higher expectations," says Anthony Varnell, a senior wrestler. His add's that "the goal was to

extremely close," adds Varnell.

This year, the wrestling team has met those goals (Can we say "Great Pride"?)

The 2005 season has also seen heightened performance by the freshmen wrestlers such as Jason Fry, a.k.a. "Little Fry," who went on to compete and win the majority of his matches. Senior Paul Sorensen, one of the star varsity wrestlers, has remained undefeated this year, and has qualified for state.

"All of the wrestlers have done well," The wrestling team is like a family, we are all..."
It was Justin Hofstee’s last year at L.C., as our number one runner. It’s a given that he would go to state with dreams of winning, because that’s what he is: a winner. It was amazing, almost surreal, how well he was doing. Determined, strong, willing, and his mind set on coming in first at state. He was trying to turn, but it was very tight and crowded and he fell and everyone was still running, they all wanted to win. They ignored him, running over him, breaking his finger, gashing his leg open. But he, being the strong, experienced runner that he is, got up and kept going.

Despite his brief lapse in finesse, Hofstee placed 34th, impressive. Despite being around 170 guys running with him, if he had not fallen, a top ten finish would have been in the reach of Hofstee. Around the end of last year, they were supposed to go to Hawaii, but they didn’t raise enough funds to send the Varsity and the JV team both, so they decided to go to Oregon instead. Last year the boys were very excited about going to Hawaii, but that didn’t get in the way of them totally dominating the competition in Oregon. So off to Oregon they went and won the number two spot in the National Ranking. That earned L.C.
Senior Hanson has a postrace talk with Coach Moran. He placed 35th overall.

LC Junior Varsity Leading the pack at a Manito race this season.

Boys Varsity warming up for their Pasco race at State. Placing 5th overall.

The Finish Line

national recognition.

which means this year
somewhere in the eyes of this
nation. So disappointment
turned into a stunning win.
It is everything they
could hope for.
Of all the people who follow
this sport, the coach has to be
extremely proud of his team.
This is the most talented
team I've ever had in four
years. This was my last
job I ever had. The steady
went beyond all expectations
the best coach. Mr. Moran told
us before he retired that this
year was his last. And it's a
sad thing.

when five of the
seven varsity members are
leaving due to graduation, and
the coach is retiring. But not all is
lost for Moran. He told us that he
was retiring for his wife and child
who need him to be a father and a
husband. Thank you, Mr. Moran
to all the cross country boys
for your intense drive and your
infinite driving nature. You show the world the excellence that
is L.C.!
The girls basketball team had an amazing season this year. They reigned over the rest of the common people as they celebrated an undefeated victory. During the games, emotions ran high, as the girls jumped and scored their way to fame. Bryce Bohlen, senior, spoke of the ritual before every game. “In order to get focused before a game, we discuss pre-game strategies. When the coaches leave we pound on things to get pumped up.” Everyone has the same goals and brings up issues before they get to be a problem. Jade Peone, junior, has her own way of getting focused. “I think about everything that I do to earn a spot on varsity, and play pow-wow music.” Both girls couldn’t say enough about their coaches. Bryce revealed that the
coaches were one of the things she was going to miss most when she graduated. Jade said, "The coaches are awesome. They know what they are talking about and have a desire to win." Thanks to the hard work of both coaches and teammates, Varsity Girl's Basketball was a thrill to watch and participate in the success of the season.

EXChange Students

Kammer Chor students relax after preforming

The Kammer Chor preforms traditional music from the 1600s for the Spokane Community
UTF- Under the Freeway. The skatepark may not be the most inviting area for many LC students. Aged bums reeking of beer, crowds of sketchy youth, and the occasional druggie sometimes lurk in the shade of 1-90, amongst graffiti plastered, dirty, dusty, weathered concrete, whether it be sunny and warm or achingly cold. However, for many the skate park is inviting, a place to enjoy during lunch, after school, on late Friday nights and early Saturday mornings, a place to hang out with friends and have fun while striving to progress your style and skill. Just a few blocks from our downtown-submersed campus, it is the epitome of urban environment and culture, and so while it contains a few of the negative aspects, it taps right into the vein skateboarding was built and continues to thrive on.

Spokane has a very spirited skateboarding scene; pro teams like Hollywood, Toy Machine, and Split demo here two or three times a year; nearby Spirit Skate Shop just released Spiritual, its third video, last November; the abundantly postponed Hillyard Skatepark opened last year, providing haven for skaters on the north side. Opportunities for skaters are better than ever, but the true spirit of the skater is in the kid skating flatground in his driveway for hours, or the punk who just got sacked learning handrails, or the old ripper shreddin’ the snake run. Spokane is overflowing with these types, the ones who skate day and night, enduring pain and frustration for the joy they obtain from skating. Through what can be a daily ritual of sore wrists and bruised hips, we march on, over broken bones and shredded ligaments.

Ironically, skating can bring relief. “It takes your mind off stuff, and it’s fun,” says sophomore TJ Parrott. Even skating the curb in front of your house can serve as a much-needed stress release, and there’s definitely physical exertion involved, which is healthy.

With all the emotions tied up with the board, skaters stress over tricks, some more than others. But the satisfaction in the end from finally stomping it is much greater. Sometimes you end up breaking your board[on purpose]... because you mess up and you can’t land it, but if you do land it it’s like the best thing ever,” explains TJ.

“it’s the thrill, you know?” I started skating in the summer after 6th grade, and memories of communal sessions with tons of friends have been building up since then. Ever since my first fish-shaped board, I’ve been hooked, and LC’s neighborhood, though dark and quirky sometimes, is as good as any. Maybe us skaters are just adrenaline junkies, but I guess some people are just born to shred.
Every year Homecoming is an excuse for girls to dress in their best and for guys to get a little peck-a-boo of their dates looking their best, and this year wasn’t any different than the one before. There were more restrictions as far as the dancing went...teachers running around telling you that..."There’s another place and time for that.” But overall I’d say that the dance was a success.

Homecoming is a unique experience for every individual that attends. Some prefer the traditional dinner then off to the dance and end the night with a simple goodnight kiss, but others prefer a less conventional approach. There were some limos full of groups of friends just looking for a good time, girls in dresses that could be mistaken for Victoria Secret apparel...but hey...there’s no accounting for taste.

Downtown restaurants were loaded with people nervously munching at their dinners while they sat in complete silence across from their dates. Thank God for the occasional couple that actually looked like they were having a good time. Red Robin, Saw Tooth, Rock City...they were all packed with a capital P. Even Starbucks had its fair share of homecoming inhabitants.

Next came the dance, a huge congregation of sweaty people in fancy dresses, shirts, slacks, and ties...and that’s about it. There were decorations and pictures being taken, professional and not so professional. At around 11:00 people started to file out and the aftermath of everyone’s night will remain a mystery.

Overall, other than the theme, which was A Night on the Nile, homecoming wasn’t too different from any other year.
The killing machine VS The Dancing Machine

You enter a darkened room; the only light is the glow of the television screen. You glance at the figure silhouetted by the hazy glow; his eyes glazed over like a zombie, but entertained, waiting for the right moment. Your eyes catch the reflections of the moving lights on the seemingly thousands of reflective soda cans and shiny chip bags. You turn your eyes away from the couch in disgust of the obscene gluttony and gaze at the screen. The smell of potato chips and soda attack your nose as you look at the lights flashing across the screen. You begin to walk forward, but you trip on a soft, breathing foreign mass on the floor, a face turns towards you, the look in the eyes are just as intense as that of the cuffed body. Your eyes move across the floor and you realize that there are two other bodies there in addition to the one you tripped over. You become slightly more interested in this strange activity and stumble over the menagerie of litter and human lives. You quickly clear off a spot on the couch, attempting to make as little noise as possible. While watching the
Lasers flash across the screen, your eyes wander and find the clock under the T.V., the numbers read 9:13 p.m. Suddenly laughter explodes into the room, accompanied by various curse words and your random sentence. With this sudden burst of unexplained energy, you jerk back, resulting in a can you neglected to clear becoming gouged in your back. The last thing you see is the title screen. HALO. You black out from the intense pain of the can lodged between your shoulder blades only to awaken to the heat of numerous bodies and a few more game systems.

Teenagers all over the country fall prey to things such as ‘HALO parties’ or other such devices, and the students at L.C. are no exception. People here love to conform to the gaming industry of America, destroying that of Japan’s and taking away all of the awesome games that made companies like Square and Nintendo what they are today. DanceDance Revolution is made by Konami, a gaming company from Japan which has brought us games like Castlevania, Metal Gear Solid, Silent Hill, Gradius and Suikoden. Though, I'm sure not many people have heard of games like these because they are blind-sided by games like Ghost Recon, Madden and the ever-popular Grand Theft Auto games. The gamers of HALO have racked up 28 million hours of game play on XBOX Live alone. That’s 28 million hours that could be used to do more productive things, and that isn’t even including individual private gaming times.

But not all gamers sit around and play HALO in all of their spare time after paying the $50 fee to get a name. There are gamers who spend their time in the arcade, playing Soul Caliber or Jurassic Park, but DanceDance Revolution or Dance Freaks. The gamers w德尔ight in these games are usually fit, but still spend hours playing video games. DanceDance Revolution is the first game to be heart for you, giving you a cardio workout while letting you enjoy the sounds of the rhythm of the steps to the beat of the music. But many people think DanceDance Revolution is a boring monotonous game which is hardly the case. There are 237 songs on DanceDance Revolution Extreme alone. “I like how it’s interactive. I like all of the cool songs and the cool colors and the videos they play in the background. It’s very engaging, too, much more engaging than most video games,” Trace Cassel tells us. He plays DDR at home. It’s having an organized seizure with flashing lights and colours, what could be better than that? You receive the awe and amazement of complete strangers and you make new human friends, too!

I've got the riding S.T.A. Blues

Every morning the bus goes by, its loud, roaring engine lasting down the street. It begins its route at 4am most days and runs until late at night. You always see interesting characters or hear the trivial conversations of high school kids. Sometimes, when you're lucky, an Asian will hop on the bus and you can sit and debate if you should say something to him with your elite Japanese skills.

On the bus it's always the same crowd: the business man, the nurse, the medical patients, the college students and the walkers. They all have their favourite stops, the back of the bus, the sideways seat. You become friends with your morning bus driver and he compliments on your hair and wishes you a good weekend. When he sees you in the summer he tries to catch up with you.

But that is only the bus ride you suffer through every morning and evening of everyday of every month of every school year. Then you have the exciting bus rides to places like the valley mall, where if you don't take the express bus, you will be riding for at least an hour, or the long trip on the commuter bus from the plaza to Northtown.

Do you understand what I'm talking about? You have the S.T.A. Blues, too, don't you? Or are you a person with their own car? They are the funniest. Sometimes they don't know how to feed the dollars into the machine. It's really funny trying to explain to them how to do it. It's just to trade them your bus pass for their dollar.

Now that I think of it, the bus passes are really awesome. I have eleven of them, all are festive and colourful. I remember my first April bus pass, it was the most wonderful shade of green in the whole entire world. It's sad when you only get to use your beautiful bus passes for a month before you have to buy another one. The green bus is my favorite. Which colour is your favourite?

It's also really awesome at the S.T.A. Plaza, especially late at night when all the men of weird people come out for some late-night fun. Like this one time, there was this huge group of kids who looked a little like punks, all were going out. I don't know what they were waiting for, but they sure did look scary. Or in the day there are various groups, like the horde of Japanese girls from the college whoalon, who are going shopping. This one time I tried to talk to a small group of them in Japanese and they all laughed at me. It made me feel bad. I could talk really well. Wells Sensei told me that they were how they react to Americans talking in Japanese, but I think they just thought it was funny. Then there are the "germs" who are always hanging out on the second level or across the street. They always look so happy.

This one time, late at night, I was riding the bus home from the Plaza after a fun day at the mall with two of my friends. We were walking at the park, and we used as a note-taking place for important things to remember, and I thought that the word "porch" looked a lot like the word that resembled "porn" so I asked my aunt if he looked at those kinds of magazines. It got very quiet in your group for a while. He just smiled and glanced at me. Eventually he said, "I rather not discuss that here." We all knew what good times you had.

Have you ever missed your bus by only a few seconds? I do it all the time. I find it incredibly annoying, I can barely stand it. I do it all
“Any student involved in AP or Honors knows how hard it is, and we all try to help each other out.”

- Sarah Godlewski, Danni Porter and Kate Girton working on English homework

\[
\begin{align*}
S_c &= 66.847m \times 1c = \\
&= \frac{16000}{1000} \times \left( \frac{115}{1000} \right) \left( \frac{10000}{160} \right) = 160
\end{align*}
\]

Elliot Boswell checks a homework assignment as Mr. Woodard hands it back to him.

Advanced Placement & Honors
Advanced Placement and Honors classes are the hardest you can have. The work loads and the stress is enough to turn your hair white, so why sign up for these classes year after year? They look good on a college transcript and if you pass the $80 AP test with a four or higher, the classes you’ve taken will count for credits at most colleges! The classes aren’t exceedingly hard, unless you haven’t been in them for most of your school career. For most students in these programs normal classes would just be too impossibly easy, even electives can seem boring. But don’t think that they actually do their work on time all the time; the amount of slacking you find in these students is hilarious though troubling. They need time to unwind, just like everyone else, so they just put off their work until class starts. The Honors and AP programs are a great way of becoming a better person and a more competent slacker. “The Honors program encourages students to set goals and have high expectations for themselves,” Jordan Palmer tells us.

The Honors program was started 20 years ago. Mr. Hagney had the first Honors class, sophomore Humanities Class. In the past, Honors were just electives, until an assistant principal named Carl Crowe pushed for the Honors program to become more than an elective class and that it wasn’t limited to just the History Department. In recent years Lewis and Clark ranked in the top 4% of high schools in the United States. “There is really no comparison between ourselves and other high schools in Spokane regarding our Honors and AP programs,” Mr. Hagney says, “The quality of teaching and the students who enroll help the Honors and AP programs to be successful.” We boast the best programs here at L.C. and that isn’t about to change.

Though you may believe that the Honors and AP programs are really a bore, you’re seriously mistake. These classes, for the most part, are fun, especially freshmen and sophomore years. The work is hard, but rewarding, the feeling of completing your work and totally dominating the impossibly demanding curriculum is incredible. And you get college credits if you really did your work and studied hard, that way you’ll be half way done with college by the time you get out of all of your AP classes!
We are the first class to walk through a full four 
years in the new renovated L.C. Never having to 
walk into the old and run-rified six centers of 
Holly Mason, we were privileged. Thanks to our 
administration, we even knew the school around before 
our other classes. Though the three years preceding 
before we might say we were a guided class, which 
will have to concede to a point, being the first full 
run-through class was tough. Especially when every 
year’s freshman classes swells the school population 
in alarming proportions. But now we’re Seniors, 
which minimizes every bigtime or confusing change 
that occurs in the school. But just to remind, 
let’s have a run-through of some of the major hiw-w 
reality things that have happened throughout our stay.

Some things have changed every year since we were 

- freshmen:

1. Mrs. Meyer’s position: remember when she taught our global issues class?
2. W.A.S.L.I.T.E.D. Testing Schedule: Can we even call this year’s a block schedule?
3. The Assistant Principals
   Fresh: Mr. Clove, Hook, & Swett
   Soph: Mr. Clove, Hook, & Rosenhar
   Jr. Mr. Clove, Rosenhar, & Maison
   Sr. Mr. Clouse, Maison, & Meyer
4. Homeroom: We have one. We don’t, first it’s third, then it’s second...make up your mind!
5. Daily schedules: Let’s not even start with the late start days...
6. Parking: Wasn’t there once a Senior Lot?
7. Freshman class size: It’s increased like a virus! A very loud, obstructive, and incurable virus!

Some more recent changes:

1. Counselor distribution: half of the Senior body doesn’t even know though.
2. The new exiting policy for seniors: Yeah, we’d all die if there were an emergency...
3. P.E. Field across from Field House: Wasn’t that originally going to be more parking?
4. “Make shift” classrooms: Theatre no longer has a Green Room, next they’ll kick out the custodians and wall in the cafeteria.

The ONE thing that will probably change the moment we leave:

- S.O.P.E. POLICY FOR MINERS; You know it’ll happen.
You know you’re a Senior when...

"...you have four AP classes, a job, and sports, and yet you still find time for a life." --Christopher Solomon

"...you can’t make JV." --Brad Fosten

"Every year I try to drive to school and no matter how hard you try, you end up getting lost in the parking lot." --Kim Stanchfield

"Homework isn't an option." --Lindsay Verchenuss & Kellie Crisp

"...every conversation begins with, 'So where are you going to school next year?"" --Amanda Shaw

The things that set Seniors apart

"We don’t have to have six classes." --Lindsey Cochran

"We're really good at planning the few empty days without sleep around." --Amanda Shaw

"We're just cooler than everyone else!" --Kim Hardy

"I'm not sure, but I know it's not Senioritis. Everyone has Senioritis." --Lindsey Verchenuss

"We get out a week earlier!" --Brad Fosten

Seniors know how to rule the school.

2005 Tiger 51
Rubber Chicken

“I was so exhausted that day but when I walked out at Rubber Chicken my adrenaline was going and I made it.” - Jessica Vignali

Picture: At the game the girls dress to our theme of ninjas
January 9th, 2005

Students from all ages stood and cheered for the basketball teams as the nuns-chucks with the cheerleading. The students who covered the head of the Ferris cowboys were Casey Franklin, freshness, and the theme was pretty cool, he said. The team was able to pull together, and how many people came. Sophomore Tyler Bailey agreed, and said, "This year was awesome. I'm definitely coming next year." The cheerleaders led the student section in a variety of heart-rousing cheers, as the Spook Crew exhibited their animated personalities on the floor. Though some people right in the middle of the student section did not stand up, the other groups more than made up for it. The drill team showed off their amazing talent during halftime at the boys game. The props were innovative, unique, and fun. The cheerleaders showed off "The Wave" and the numerous attempts at "The Wave." Though LC lost the chicken, we didn't lose our Tiger Pride.

FAST, CHEAP, & EASY

This is the way fast food is supposed to be.

Among the throng of restaurants in LC, Dick's is the one with the most authentic 1950s-style price. A person can have a pound of meat for $20.00. A large pie at Dick's is only $5.00. The food is usually hot and fresh, and the prices are reasonable. Dick's is a true representation of America's fast food culture. Dick's has been around for over 50 years, and it has become a local favorite. Dick's hamburgers are made with fresh beef and served with a side of french fries. The hamburgers are greasy, but they are delicious. Dick's also serves milkshakes, shakes, and shakes. Dick's is located at the corner of 7th and Vermont, across from the LC campus. Dick's is open from 6:00 AM to 10:00 PM daily. Dick's is the perfect place to meet friends and enjoy a meal.
